EDUCATION

2023 - 2027

SAN MATEO HIGH SCHOOL

- Weighted GPA: 4.57/4.00
- AP Biology; AP Computer Science; AP Calculus AB/BC; AP Physics; Biotechnology
- Varsity Mock Trial

SKILLS

- Java
- Python
- C++
- Agentic Coding
- Mechanical Design
- 3D Modelling (Blender)
- 3D CAD (OnShape)
- Leadership
- Effective Communication

AWARDS

- AP Scholar (2025)
- FTC Design Award (2023)
- FTC Connect Award (2022)
- FTC Inspire Award (2021)
- FTC Control Award (2021)

RESEARCH PROJECTS

Explainable Machine Learning of Gene Expression in Human Tumors

2026

- Built a Python pipeline for exploring single-cell RNA sequencing cancer data, helping researchers identify biomarkers and potential therapeutic targets
- Presented the project in the high school section of the American Association for Cancer Research (AACR) conference in April 2026
- Published as an open-source GitHub repository: <https://github.com/shashmehta/SCRIBE>

3D Animation of Imaging System

2024

- Created a 3D animation in Blender for waveOrder, a Biohub Computational Microscopy Platform technology.
- Explained how label-free phase and polarization imaging can visualize cellular structures without stains.
- Published as supplementary material in a scientific paper: <https://arxiv.org/abs/2412.09775>

WORK EXPERIENCE

Vortex Robotics (Robotics Coach)

2024 - PRESENT

- Coached new team members in robot design, programming, planning, and teamwork.
- Taught hardware and software fundamentals for the FIRST Tech Challenge competition.
- Helped lead the team to the regional championships during the 2024 - 2025 season.

Personal Tutor

2024

3D Modeling and Programming Tutor

- Tutored students in 3D modeling and coding using Blender, Python, and Scratch.
- Developed a project-based learning curriculum and provided 1:1 tutoring.
- Earned bonus compensation for tutoring quality.

Vortex Robotics (Captain)

2021 - 2024

- Led the team as co-captain to the FIRST Tech Challenge Regional Championships
- Won FTC Inspire, Control, Connect, and Design awards
